

„Śnieżka”

dry whipped cream products

► Śnieżka – whipped cream (60 g)

► Śnieżka – instant whipped cream (60 g)

“Śnieżka”

dry whipped cream products

“Śnieżka” - **whipped cream** – an excellent substitute of natural cream with production based on milk, easy to prepare, has a taste and consistency of natural whipped cream.

“Śnieżka” - **instant whipped cream (AQUA)** – only water is needed for its preparation. It contains about 50% calories less than its equivalent of natural whipped cream.

We recommend our “Śnieżka” whipped creams as a topping for desserts, fruit, ice cream, and jellies.
